

zenium

***Zenium - excellence
through high precision.***

zenium

A little bit of history ...

- Created 1999 as B2M with the Buccolux product range
- Invested heavily in research and develop
- 2004 the company Zenium was born
- 2007 the first generation Avisio was launched
- 2009 the first generation Zyo was launched
- Leader for dental lighting in France.
- Moved to the new propose built facility in 2011

Why lighting?

Lighting is an integral part of the surgery equipment, just as important as the chair, the unit and the furniture

Poor lighting is the cause of many problems

Clinical - poor selection of shades, access difficulty to parts of the oral cavity

Personal - headaches, tension, stress and reduced visual acuity
